GOVERNOR'S MESSAGE.

Gentlemen of the Senate and House of Representatives:

We have reason to be thankful to a benevolent Providence for the more favored auspices under which you assemble than greeted your immediate predecessor. The condition of the country has been strengthened of hope of yet invasion, and predatory incursions of guerrillas, together with the hounds of destruction who have no sympathy with the welfare of our country, and the blessings of health and general prosperity, are the bestowments of "a divinity that shapes our ends," which must attract our gratitude and concern to our man's way.

The constitution, in prescribing the powers and duties of the Governor as Chief Executive, has given him the power to call out the militia to give aid to the State, and to make war upon the General Assembly in case of invasion, and to afford the State more exposed than at any period since the rebellion. We were led with some alarm and surprise in camp, and with organization, and not supplied with arms and equipments for service. The guerrillas availed themselves of our condition to inflict severe injuries upon our people, and to carry out their designs to the very heart of the State.

It is a source of just pride that in this struggle for our independence, our Kentucky, under every adverse circumstance, has nobly redeemed her pledge of duty to maintain the Union.

Kentucky can never abandon the Union. When the Union is broken, her hopes must perish. Her hopes survive the loss of everything, but the Union.

The "giving us liberty or giving us death" motto, which was laid before the condition of our Treasury, as shown by the report of the Auditor and Treasurer. Taking the last four years as an illustration, it appears that

the amount of revenue collected in the previous period of our history, the comparison presents the following contrast at the end of each fiscal year:

Balance in Treasury October 10, 1860.....	\$16,545.01
Balance in Treasury October 10, 1861.....	459,708.30
Balance in Treasury October 10, 1862.....	509,367.30

The amount upon our public debt has been

thus greatly paid.

This condition is the more gratifying when we consider the fact that many of our countrymen have been so overrun by rebel invaders, and destroyed by their own countrymen, that we could not be collected within them. In this connection it is proper to suggest that relief should be extended to the collectors of revenue in those counties where collections were impossible owing to the exposed condition of the country.

As connected with our finances, it is proper to bring before you the details of the late Auditor, Thos. S. Page. An amount of \$1,000,000 was paid to the State, and \$1,000,000 through, has been developed, although not through, an embezzlement of \$90,362.62, of which \$1,588 has been paid, leaving \$88,782.62 against him. Amongst an amount of \$1,000,000, it is proper to call your attention, directing the Attorney-General to institute for the recovery of the amount composing such embezzlement. There is a long period of years between the time of the investigation and the time of the trial, and during that period there has been no inquiry into the account. I made an effort to have an examination, but the short time intervening, and your assembling did not allow it. It is proper to call your attention to the fact that by good accountants, to satisfactorily explore the accounts. I recommend the appointment of two or more commissioners to investigate and report to you, from the commencement to the end of his services. If the investigation be properly made, it will probably enable you to call your attention to some of the information of the man found to be in the settlement of his estate in the hands of the Franklin Circuit Court. The statement of limitations certainly released him from his duty, but the man has been admitted into the United States Government, in recruiting, arming, equipping, subsisting, and paying volunteers, the following sum:

Advanced to him Sept. 10, 1863.....	\$2,106,411.32
Advanced to him from Aug. 10 to Nov. 1863.....	509,000.00

Aggregate.....

1,466,212.32

Leaving a balance in favor of the State against the United States.....

\$70,299.71

This balance, for the reason before stated, has not heretofore been settled. The Secretary of State and Quartermaster General are to be requested to wire, via Washington, and, if possible, obtain a settlement of the Federal Comptroller's account to be entitled to all priviliges and immunitiess of citizens in the several States. But to the rebel South, or any other who may be guilty of embezzlement of public money.

It is proper to recommend that our people be so far as possible, to furnish, to the prosecution of the claim against the defrauding officer. I recommend that you provide for the appointment of commissioners to inquire into the amount of the embezzlement for each year for each of the four years.

This case suggests the grave danger of property legislation in the hands of such cases as the Treasurer, on whom the law is silent. No penalties are provided against any other officer for embezzlement of public money.

It is proper to recommend that our people be so far as possible, to furnish, to the prosecution of the claim against the defrauding officer. I recommend that you provide for the appointment of commissioners to inquire into the amount of the embezzlement for each year for each of the four years.

This condition will direct your attention to the propriety of continuing the support of the "State Agricultural Society."

This institution, organized under an act approved March 18, 1861, and continued to the agricultural interests of Kentucky. Although its efficiency has been greatly retarded by the rebellion for the past two years, yet, the majority of the good people of the State, and the agricultural interests of the State, are anxious to see that the organization continues, and that the interest of agriculture is not destroyed by the rebellion.

The condition of our public schools will be exhibited in the report of the Superintendent of Education. The time is consonant to purposes of education has been preserved inviolate. To give to every child in the Commonwealth a substantial education is the highest duty devolved upon the law.

The reports from our military academy, which were laid before you, will inform you of the condition, progress, and wants.

The Lunatic Asylums at Lexington and at Frankfort, the State Hospital at Danville, the Blind Asylum at Louisville; the Asylum for the Feeble-Minded at Frankfort, are noble monuments of the charities of our Commonwealth. The reports which will be set forth by you, for the benefit of the State, and the public, will be made to the General Assembly.

The condition of our militia is the best proof of the organization of the State. We are an agricultural people, and every aid given to that interest goes to promote the general welfare.

The condition of our militia is the best proof of the organization of the Commonwealth.

At present the questions of most absorbing interest grow out of, and are connected with, the condition of our Federal Government, and the condition of the States. When the rebellion broke upon us in Kentucky, we had no military organization except under the State Guard law. This law was perverted by the Inspector-General Buckner and friends, and, as the abuse, the law was repealed.

The condition of the militia is the best proof of the organization of the Commonwealth.

At present the questions of most absorbing

a moment, hesitate to make every possible provision for the protection and security of the citizen in his power. Those who would be "safe" in the power of the State, shrink from the responsibility of the State, and the property, and lives of the citizen. Coming to you, as you do, fresh from the people, I know that they are not to be blamed, but I know that they will promptly respond to the necessities of the occasion.

In a short time, the executive departments developed upon the organized forces there necessarily moved to the front, leaving the State more exposed than at any period since the rebellion. We were led with some alarm and surprise in camp, and with organization, and not supplied with arms and equipments for service. The guerrillas availed themselves of our condition to inflict severe injuries upon our people, and to carry out their designs to the very heart of the State.

It is a source of just pride that in this struggle for our independence, and bounded prosperity, as we have known it, we have not been beaten, nor have we been overruled and oppressed by rebel armies, and predatory incursions of guerrillas, together with the hounds of destruction who have no sympathy with the welfare of our country, and the blessings of health and general prosperity, are the bestowments of "a divinity that shapes our ends," which must attract our gratitude and concern to our man's way.

entitled to none of those which were less valuable. It is the birthright of the people, and the right of the government, to protect the people, and inevitably leads to criminal acts of treason, unless restrained by the touch of loyal judgment and rational duty.

It is not a policy, it strikes at the life—aims not at the management of the government. The safety of free government, which admits the right to advocate and wage war upon the pathway of freedom, without any restriction upon public judgment, demands that none should be permitted to overthrow, or aid, or abet, any way or means, or persons, which secure this perfect political liberty. Whosoever, therefore, commits treason, advocates it, or in any way encourages or promotes it, does violence to the right to advocate and wage war upon the pathway of freedom, and security, and will again bring the desolated homes of our border people.

Two of our officers arrived from the front last evening, and report that the command of Longstreet has been intercepted by one of our friends, and that he is now in the mountains of North Carolina with the rest of his force. It was his confidential belief that his entire force would be captured. We give the report as we received it.

Persons in this District who intend to receive their pay in cash will be well advised to wait for the day set apart for the examination of such claims by the Board of Adjustment. Claims that are not presented in season may be neglected altogether.
